

FUTURA FLOREAT 2028

**CHANGING THE FACE OF THE SCHOOL
BASED ON MODERN EDUCATIONAL SCENARIO
THE FIVE-YEAR DEVELOPMENT PROGRAM OF
FLOREAT INTERNATIONAL SENIOR SECONDARY SCHOOL**

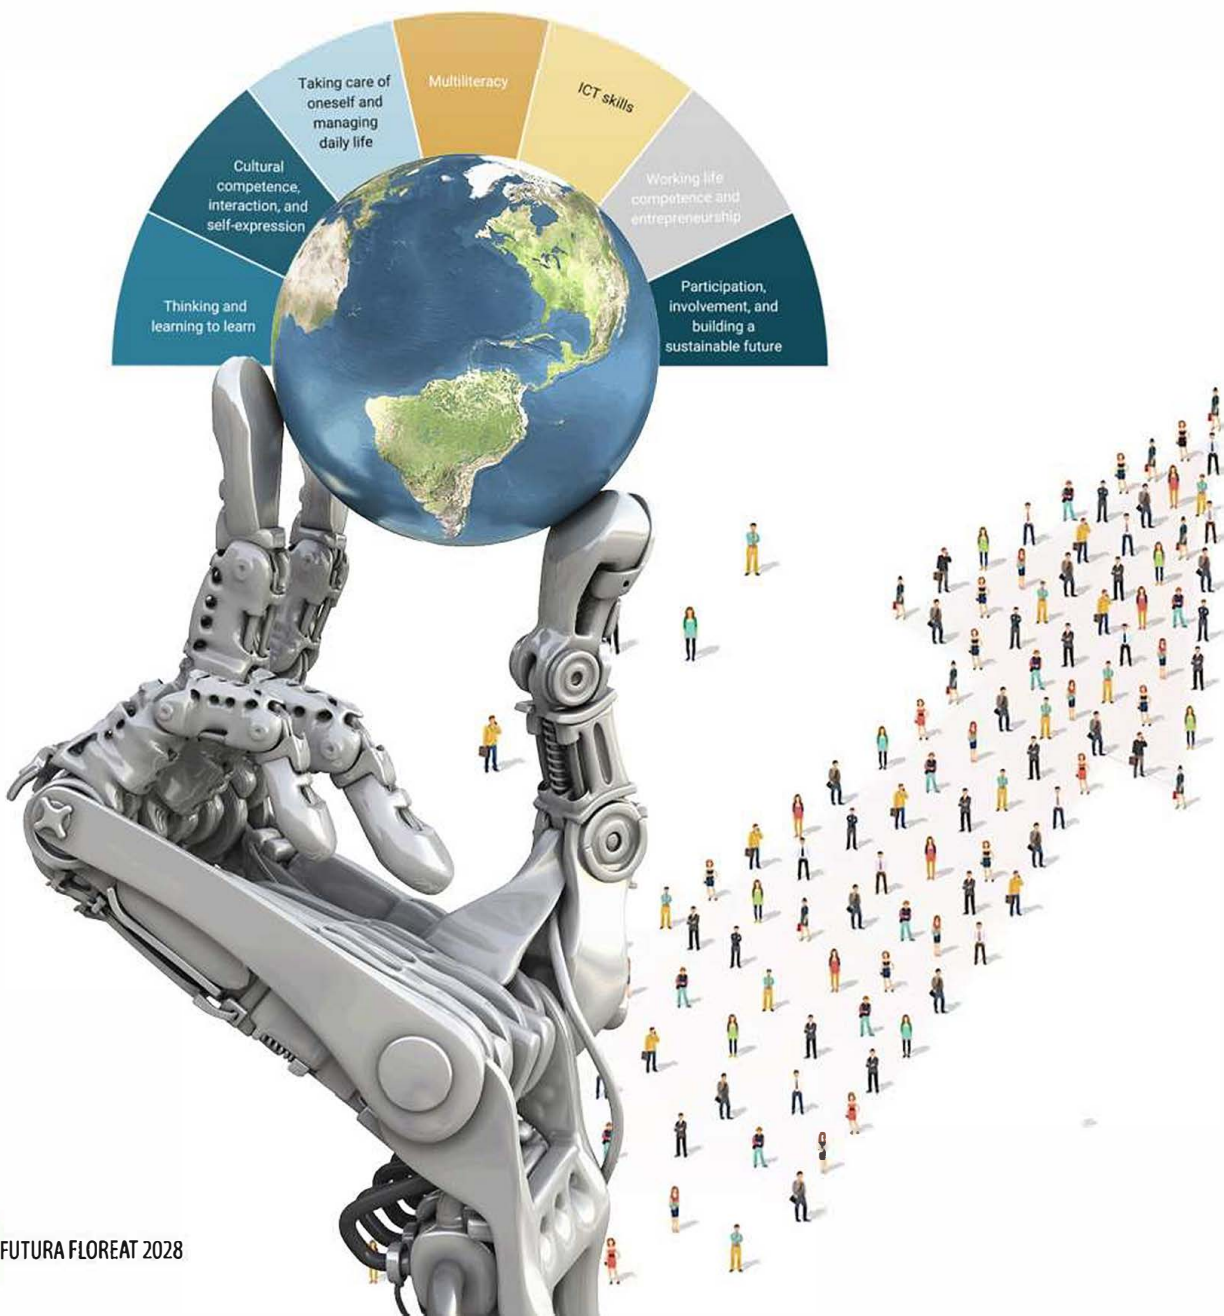

**FOCUSING ON LIFE AND CAREER SKILLS - LEARNING AND INNOVATION SKILLS -
INFORMATION, MEDIA, AND TECHNOLOGY SKILLS**

Through the five-year plan '**FUTURA FLOREAT 2028**', the aim is to develop the basics of 21st century skills for children from Kindergarten to Senior secondary. For this, various sessions and awareness programs will be implemented along with basic education. Based on the rapidly growing educational and social context, the school's infrastructure will also undergo significant changes.

21st century skills help students build character and cultivate compassion and empathy, which are crucial as social collaborative beings. These skills also ensure that as children grow up, they are ethical and have integrity so that they can collaborate and function well with others and thereby create a better future.

Children learn about the diversities around them and learn to respect those differences. 21st century skills help children succeed in the globalised and rapidly changing world. We realise that it is the important responsibility of schools and parents to nurture these skills in children from a very young age.

ALONG WITH THE BASIC SYLLABUS AND TIMETABLE,
ADDITIONAL SESSIONS WILL BE INCLUDED

LEADERSHIP SKILL DEVELOPMENT

Leadership skill development classes and programs will be organised for children from KG onwards by finding regular intervals in the time table and arranging extra time.

ORATORY SKILLS

This is a program that provides excellent training considering the importance of developing public speaking skills. Offline programs and media facility will be used.

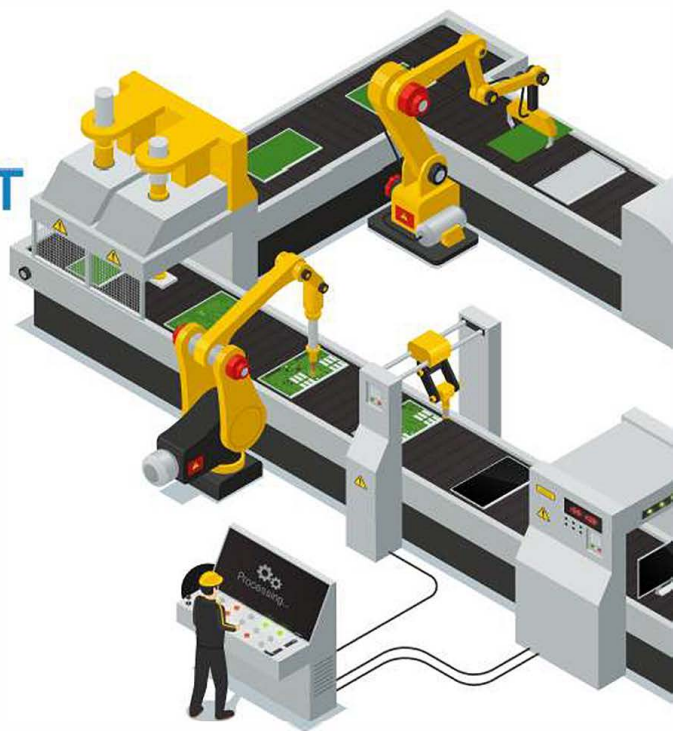

CAREER ORIENTED TRAINING

It has been decided to provide career-oriented training classes at an early age. It also helps to increase confidence and general knowledge in children. Initially, foundation sessions will be given in the fields of Civil Service, Medical, Engineering, IT, and Tech.

MANUFACTURING SKILL CENTRE & PRODUCTION UNIT

The aim is to give the children a business foundation awareness by experiencing things like how business works, how materials including food items are manufactured, and how distribution and money exchange are done, etc. For this initially, a nutritional food production unit will be set up at the School.

NEW MEDIA

The aim is to develop in children the potential and essential skills of the digital world. Foundation sessions will be given in various fields like digital marketing, branding, etc.

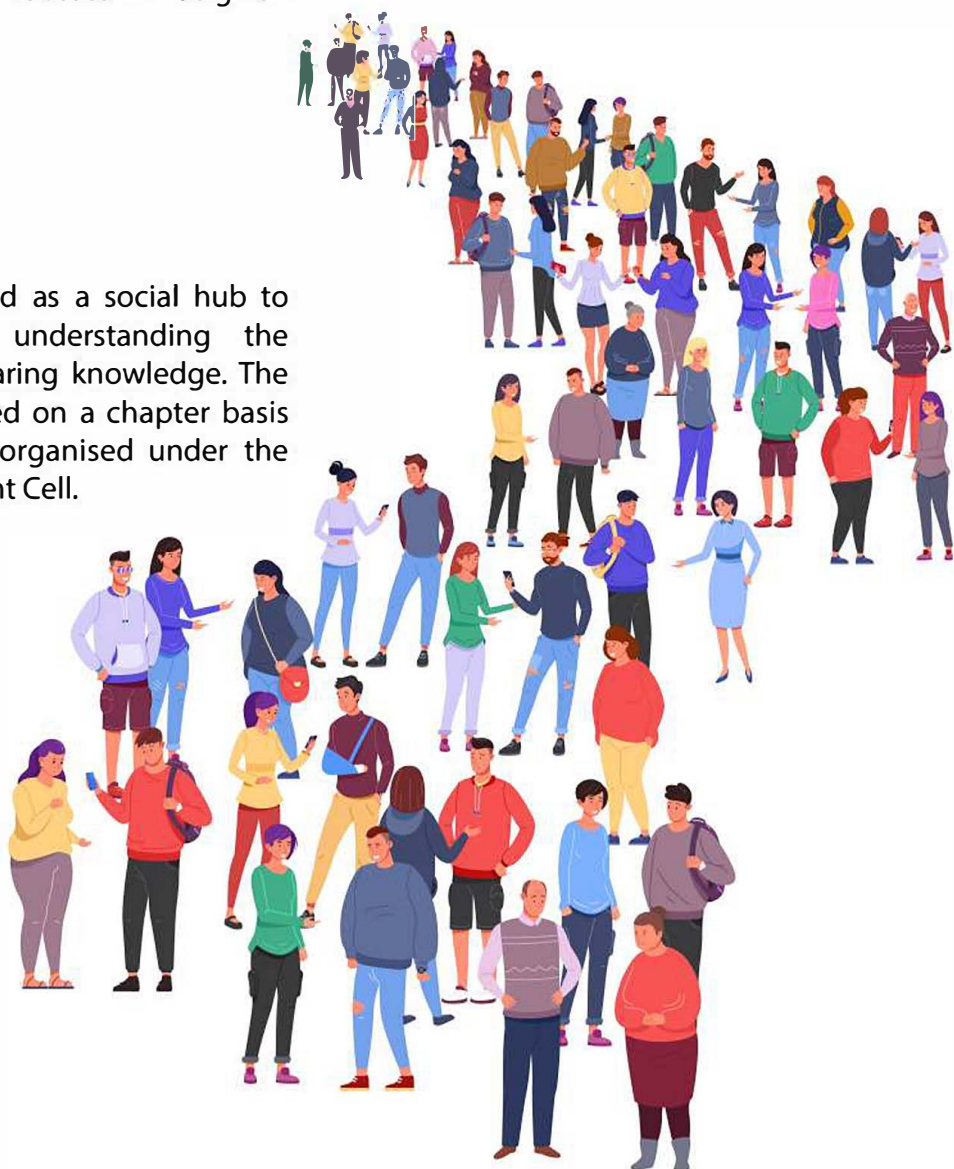

TECHNOLOGY

The aim is to introduce children to the possibilities of technology like Robotics, Artificial Intelligence, Augmented Reality, Virtual Reality, etc. Foundation classes will be given on a batch basis.

FLOREAT SOCIAL HUB

The school campus will be utilised as a social hub to promote social communication, understanding the importance of relationships and sharing knowledge. The following programs will be organised on a chapter basis during the year. Programs will be organised under the leadership of the School Development Cell.

- Leadership & Business Conclaves
- Camping
- Exhibitions
- TED Events
- Film Festival
- Entertainment Programs
- Awareness Programs
- Training Programs for Teachers, Students & Non - Teaching Staff
- Project - Oriented Excursions
- Interschool Competitions

AUDIO VISUAL THEATRE (AVT)

Films, Presentations, Special assemblies, Guest Talks, Group Discussions, Orientation Programs – The AVT will be a witness to all of this and more. Air - conditioned, Acoustic, Technically well - equipped area with relevant displays all around, sets the tone of a special session that parents and students look forward to being a part of. Sometimes, students bond over stories while watching films here, at other times they showcase their special skills. Floreat believes in giving opportunities to every student to perform and flaunt their talents in the presence of their Peers, Friends and Parents. This place is not only confined to students but also to educators who attend workshops or training programs here, and also to parents who also attend Parent Workshops, talk by a Resource Person, and Orientation Programmes here.

“ THEATER HAS THE POWER TO CHANGE LIVES. “

ROBOTICS STUDIO

The Robotics Studio aims to bring the best of Science and Maths together to make an on-the-field space for the creative minds of the children. With the Lab being equipped with the latest tools and technology, there are extended facilities to promote the children in designing robotics.

CAREER ORIENTED TRAINING CENTRE (COTC)

Career-oriented Foundation Sessions in various fields will be given to students from 5th to 12th standard.

CYCLEWAY

As part of promoting cycling, a cycle hub, and cycleway will be setup on the school campus.

INDOOR GAME ZONE

An indoor games zone will be set up that will be useful in any weather.

HOSTEL WITH DORMITORY AC/NON AC

AC / non AC Hostel / Dormitory will be prepared for utilising residential courses, various programs, and other campings.

NUTRITIONAL FOOD PRODUCTION UNIT AND OUTLET

Learn about manufacturing and marketing products. The aim is to understand business potential at an early age. In the first phase, a nutritional food manufacturing unit and outlet will be established.

TALENT CLUB

The club aims to discover the unique talent of children and provide opportunities to them continuously.

FLOREAT PRODUCTION HOUSE

In the context of visual arts, FPH focuses on making movies, documentaries, commercials, and other forms of video for school promotion and social purposes.

OPEN READING AND WRITING AREA

An open reading and writing area will be prepared to facilitate reading and writing in harmony with nature.

OPEN STAGE

An open-stage system will be provided for events that accommodate large crowds.

HEALTH WING

A health wing will be set up to diagnose life style diseases and provide counselling. A health file system will be prepared for each child based on the results of the children's full body checkups twice a year.

The 21st century has brought in the golden era of endless opportunities and new openings and dimensions, which ultimately has revolutionised the education system completely. That being said, it has also made us aware of how in today's world, to thrive only survival tactics won't be enough.

Kids need to be nurtured and taught special skills from an early age. And this is why traditional learning methods won't cut it anymore, and special skills are the need in this century that will equip children to face and overcome the challenges life throws at them. Reasons why 21st- century skills are important for today's Children.

Keeping these things in mind, FLOREAT provides the foundation for children from KG onwards to develop such skills at an early age. In the future, the aim is to make further developments considering the National Education Policy and the importance of 21st- century skills.
